

1. Please confirm whether you accept the nomination.

Yes

No, if not please comment (max. 500 characters)

Comments:

2. Please elaborate on how your background demonstrates involvement in the Internet, particularly in the areas of IP addresses management, public policy, and how this experience has helped influence your vision for AfriNIC.(max. 2000 characters)

I was in forefront introducing Internet in Congo Universities. Give my time as volunteer trainers and are pushing implementation of IPv6 in the continent.

3. What according to you are challenges that will AfriNIC and that will need special attention in the coming three to five years (both from the community and the Board perspective). (max. 2000 characters)

Increase membership seem to be a big challenge for the next 3,5 years. IPv6 is also another challenge as IPv4 depletion is inevitable

4. Please highlight those elements of your experience that have enhanced your understanding of technology, policy, business/finance and economics.(max. 2000 characters)

Was one of the founder member of Congo Internet Internet Service Provider Association. I encourage and installed the IXP in Congo 2002.

5. Please describe 3-4 situations where you have demonstrated the skills a Board member should have, such as organizational leadership capability and general business/financial skills.(max. 2000 characters)

1. I am board member of AfriNIC for last 4 years, and hope was an asset.
2. Led the Afrispa team for IXP development and conduct technical and decision makers workshops in more than 10 countries.
3. I was member of ICANN NOMCOM 2003

Comments and/or Remarks (max. 2000 characters)

AfriNIC is one of the ICT success stories for Africa, and it still doing fine. If I have a privilege to be re-elected, I will proudly continue to be an asset for the organization
