Abuja

Policy Development Process

Policies Implemented

- 4-Byte ASN
 - Allocated by IANA in Nov 2006
 - Implemented as from Jan 2007
-

Proposed Policies

- IPv6 Provider Independent (PI) Assignment for End-Sites
 - Vincent Ngundi, Alain P. Aina
 - 9 people for and 1 against on mailing list
- IPv6 assignment for Critical Infrastructure
 - Frank Habicht
 - Will be withdrawn if first one goes through
- IPv6 Address Allocation and Assignment Policy
 - Jordi Palet Martinez
 - No discussions so far on mailing list

Proposed Policies

- Proposal to change the allocation and assignment period to 12 months
 - Adiel A. Akplogan
 - One comment only on mailing list
- Change the IPv6 HD ratio from 0.8 to 0.94
 - Adiel A. Akplogan
 - 6 for the proposal and none against on mailing lists
- IPv6 ULA-Central
 - Jordi Palet Martinez
 - Discussions so far tend to show that more people are against the current wording of this policy on mailing list

To be Proposed Policies

- IPv4 Exhaustion
 - APNIC on behalf of JPNIC
 - NREN-LIR
 - TENET
-

Thank You
