1 **Put Africa on the Map: Become part of the African Internet Measurement Initiative**
AFRINIC has launched the African Internet Measurement Initiative to build a large scale measurement network and to analyse interconnectivity and networking in Africa. To help us achieve this, AFRINIC has joined forces with the RIPE NCC's RIPE Atlas project.
We are offering the community the chance to be part of this project by enabling them to become an Atlas Probe Host or an Atlas Anchor Host.

2 **Host a Probe**
1. Create an account here: https://access.ripe.net/registration
2. Confirm your account by clicking on the link sent to your e-mail.
3. Log into RIPE Atlas: https://atlas.ripe.net/
4. Go to the AFRINIC link to apply: http://www.afrinic.net/atlas/register

3 **Need more information about the African Internet Measurement Initiative and AFRINIC/RIPE Atlas?**
AFRINIC's Research and Development Team is on hand to tell you everything you need to know. Contact the AFRINIC/RIPE Atlas
Team at: atlas@afrinic.net
