

Staff Assessment: Clarification on IPv6 Sub-Assignments v3

Proposal	AFPUB-2018-V6-002-DRAFT03
Title	Clarification on IPv6 Sub-Assignments

1.0 Staff Understanding of the Proposal

Proposal adds the following text to CPM 6.8 (PI Assignments), presumably at the beginning of 6.8:

It is allowed to use the assigned addresses for:

- a. the assignment holder network
- b. third party devices operating within that infrastructure
- c. interconnections

It will be considered a sub-assignment and consequently it is not allowed to use the assigned addresses for providing services to customers (such an ISP), data-center or similar cases.

2.0 Staff Comments

None

3.0 Comments from Legal Counsel

None

4.0 Implementation:

The proposal will be implemented within the timelines provided for in the PDP.

4.1 Timeline & Impact

4.2 Implementation Requirements

Updates to internal request evaluation procedures.
